

Our products page can search for items under the *Search Products* search bar. The checkout button notifies you if you have items in your checkout.

The system will notify you if the item is added to the cart.

The shopping cart shows a list of products you have ready to be purchased.

You can increase the number of items that you want and also remove it entirely from your shopping cart.

Address

Full Name

Bob Smith

Email

Bob.Smith@gmail.com

Phone Number

123-456-7890

Street Address

123 Street Street

City

Citysburgh

State

Contributions

Josh Brandt – Collaborated on JSON structuring of user and shopping cart information. Created Checkout.html, and orders.json. Added script to turn form boxes into JSON file.

Kyle Collamer - Collaborated on JSON structuring of user and shopping cart information. Collaborated on adding products to products page.

Viet Dang - Responsible for troubleshooting and refining the website by identifying and resolving technical issues, optimizing functionality, and ensuring a smooth user experience. Tasks included debugging code, enhancing performance, and improving overall site stability.

Tim Pickering - Worked on shopping cart page, added smart features such as removing or adding more of the same product in shopping cart, and added search bar for products.
